Summary judgment hearing

October 30, 2026

User-supplied hearing date

Calculation working

1. Use the actual noticed or continued hearing date. This workflow does not reserve a hearing.

Not applicable.

No hearing date is moved automatically.

Remaining checks and review

Check the actual order, department procedures, service authorization and any additional court closure before use.

The motion normally requires 60 days after each adverse party's general appearance. No appearance date was supplied, so eligibility was not calculated.

The hearing normally must precede trial by at least 30 days. No trial date was supplied, so this condition was not calculated.

Opposition and reply service must satisfy CCP section 1005(c). No delivery time or filing cutoff is assumed.

A continued hearing does not mean already-served moving papers must automatically be served again.

The service date is a court-day target preserving minimum notice. It is not a certification of the last legally permissible service instant.

Service method personal.

User confirmed standard periods, reviewed department procedures and actual orders. Hearing time appears only when supplied.

Additional closures supplied None.
